

# 2013 Annual Runoff and Allocation Report

**Water Forum  
Successor Effort**

**Issuance Date: September 9, 2013**

**Purpose:** This report is issued annually by the Water Forum Successor Effort to project March through November Unimpaired Inflow into Folsom Reservoir (March-Nov UIFR). Per the Water Forum Agreement of 2000, this hydrologic index is monitored every year during the months of February through June (See **Figure 1** and **Table 1**) to determine the type of water year and may be used by American River water purveyors and water right holders to determine the extent of their dry-year procedures. For more information on these topics, visit <http://www.WaterForum.org/Dry Year Procedures>.

**Projected Mar-Nov UIFR for 2013 is 778 TAF.  
This level of flow triggers a Wedge Year**

**Figure 1. UIFR Projections and Annual American River Water Allocation<sup>1</sup>**

**Monthly Runoff and Allocation Report; 2013 (continued)**

**Table 1. Monthly Runoff Values**

Month	UIFR Monthly and Total Volumes in TAF				
	February Publication	March Publication	April Publication	May Publication	Final Values
March <sup>1</sup>	360	225	220	217	217
April <sup>1</sup>	360	290	260	241	241
May <sup>1</sup>	400	300	255	200	200
June <sup>1</sup>	180	110	75	50	50
July <sup>1</sup>	40	20	10	9	9
August and September <sup>1</sup>	10	5	-	1	1
October <sup>2</sup>	30	30	30	30	30
November <sup>2</sup>	30	30	30	30	30
<b>Total</b>	<b>1,420</b>	<b>1,020</b>	<b>885</b>	<b>778</b>	<b>778</b>

<sup>1</sup> Values are from *Bulletin 120, Water Conditions in California*, California Department of Water Resources (DWR) for the given publication month (<http://cdec.water.ca.gov/snow/bulletin120/>). DWR publishes Bulletin 120 four times a year (February through May), providing forecasts of unimpaired flow for several watersheds in California for the given water year.

<sup>2</sup> Values are from *Technical Memorandum No. 1, Computing March through November Unimpaired Inflow into Folsom Reservoir*, Water Forum, May 2007.

**Significant Post May Events:**

Mid-Month storm events in May-2013 did not deviate appreciably from the norm. DWR's post-May runoff updates did not indicate significant changes to the May projection of the March-Nov UIFR. Therefore, no post-May adjustments were made.

**USBR American River CVP Municipal and Industrial Contractor Allocation**

On July 15, 2013 the CVP announced that the North of the Delta Municipal and Industrial (M&I) allocation is 75 percent of their historic use. Please see the following web site for more information. <http://www.usbr.gov/mp/PA/water/>

Please note that the CVP allocations are administered by the USBR and are not part of the Water Forum Agreement. The CVP information is provided for informational purposes only.
